Northern Tier Regional Planning and Development Commission

Northern Tier Rural Planning Organization (RPO)

Annual Report of Federally Obligated Projects

FFY 2022 (October 1, 2021 – September 30, 2022)

Northern Tier RPO

The Northern Tier RPO is a Planning Partner with the Pennsylvania Department of Transportation, in which Federal transportation funds are planned and programmed for investment within Bradford, Sullivan, Susquehanna, Tioga and Wyoming Counties.

Annual Obligation Report

The FFY 2021-2024 STIP Planning Finding identified one Corrective Action: all MPOs must develop an Annual Listing of Obligated Projects for which Federal funds have been obligated in the previous year in accordance with 23 CFR 450.334.

The annual listing of obligated projects is required through the current federal transportation bill. This bill, known as the Fixing America's Surface Transportation (FAST) Act, requires Metropolitan Planning Organizations (MPOs) to publish a list of all projects for which federal funds have been obligated in the previous year. This report responds to the requirements of this statute, listing the federally-funded transportation projects that were obligated in federal fiscal year (FFY) 2022 (October 1, 2021 to September 30, 2022). This requirement applies specifically to MPOs. However, since PennDOT has developed agreements with all planning partners that position Rural Planning Organizations (RPOs) as equals with regard to MPO planning requirements, Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) have strongly recommended that the RPOs meet this specific requirement for transparency purposes.

The federal transportation planning statute states:

In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.

The Northern Tier RPO, being a Planning Partner and having agreements with PennDOT, is required to develop an Annual Listing of Obligated Projects. This is a list of projects to which Federal Funds have been obligated in the previous year in accordance with 23 CFR 450.334.

During the 2021-2022 period, the NT RPO programmed a total of **\$37,504,988** for 100 phases of 86 projects. The 97 phases were divided into six funding categories.

- Bridge Off System – 12 phases totaling \$7,125,780 (18.99% of total)
- Enhancement – 2 phases totaling \$1,652,339 (4.41% of total)
- National Highway Performance Program (NHPP) – 12 phases totaling \$5,260,377 (14.03% of total)
- Safety (HSIP) – 12 phases totaling \$5,968,370 (15.91% of total)
- Special Funds - 30 phases totaling \$1,548,597 (4.13% of total)
- Surface Transportation Program (STP) – 32 phases totaling \$15,849,524 (42.26% of total)

Funding Class Description:

Bridge Off System (Bridge Off) Funds: Used for County, Local Municipal and Rural State highway bridges.

De-Obligation of funds: The downward adjustment or cancellation and removal of a previously recorded Federal funds obligation associated with a project.

Enhancement/Transportation Alternative Program (TAP) Funds: Used for projects that improve pedestrian and bicycle mobility in downtown areas. Along with off-road trails.

National Highway Performance Program (NHPP) Funds: Used for projects to support and enhance the National Highway System (NHS).

Highway Safety Improvement Program (HSIP) Funds: Used for projects to minimize crashes and improve safety such as guiderail, low-cost safety improvements.

Special Funds: Used for specific projects such as emergency flood projects.

Surface Transportation Program (STP) Funds: Funds that are flexible and used on projects for highway, bridge and bike/pedestrian.
